COURSE OF INSTRUCTION.

[APPROVED BY THE SUPERINTENDENT OF COMMON SCHOOLS.]

Model School Course.

The pupils in the Model School are generally from eight to sixteen years of age. A limited number can be received from abroad. The teaching is mainly done by the Graduating Class of the Normal School, but subject to the constant supervision of the Superintendent of the Model School. The school has been in operation under this arrangement for the past eight years, with the most marked success.

The course of instruction comprises the usual branches taught in Common Schools, together with the elements of some of the higher branches. Attention is given to Object Lessons, Vocal Music and Drawing.

—o—

Preparatory Course.

Many of our students enter the School quite deficient in a knowledge of the most elementary branches, and this fact renders necessary a Preparatory Course of study.

This course embraces Orthography, Reading and Elocution, Writing and Drawing, Mental and Written Arithmetic, Physical and Political Geography, Grammar and Composition, and Vocal Music.

—o—

Elementary Course.

Students with a *fair* knowledge of the branches of study named in the Preparatory Course can enter this Course and graduate in two years. The studies for the two years are as follows:

JUNIOR YEAR.

D CLASS.—Orthography (Raub), Reading (Hillard and others), Mental Arithmetic (Brooks), Written Arithmetic (Brooks), English Grammar (Kerl), Political Geography (Mitchell), and Penmanship.

C Class.—Higher Arithmetic (Brooks), Higher Grammar (Analysis, etc.), Physical Geography (Warren), Elementary Algebra (Ray), Drawing, Vocal Music, Theory of Teaching (Wickersham's School Economy).

SENIOR YEAR.

B Class.—Mental Philosophy (Haven), Geometry (Brooks), Rhetoric (Quackenbos), Natural Philosophy (Quackenbos), Elementary Algebra (Ray, with Lectures, etc.), Theory of Teaching (Wickersham's Method of Instruction).

A Class.—Methods of Instruction completed, Etymology (Trench, with prefixes and suffixes), Botany (Gray), or Geology (Tenney), Physiology (Cutter), Book-Keeping (Lectures), History of the United States (Seavey), Constitution (Hart), Practice of Teaching.

Theory of Teaching.—The Theory of Teaching embraces three things, namely:

1st. A knowledge of the Mental and Moral Powers, and the Methods of Training them.

2d. A knowledge of the Methods of Teaching the different Branches of Study.

3d. A knowledge of the Methods of Organizing and Managing Public Schools.

Practice of Teaching.—The Practice of Teaching consists of forty-five minutes' daily practice in the Model School, and two meetings each week for the discussion of the Practice of Teaching.

——o——

Scientific Course.

Having completed the studies of the Elementary Course, or their equivalents, Students can enter this Course and graduate in two years. The studies are as follows:

JUNIOR YEAR.

First Term.—Higher Algebra (Ray), Trigonometry (Brooks), Geology (Dana), Chemistry (Youman), General History (Willson), Electricity and Magnetism (Foster).

Second Term.—Higher Algebra, completed, Spherical Trigonometry and Surveying (Davies), Zoology (Agassiz), General History (Willson), Optics and Acoustics (Foster and Jackson.)

SENIOR YEAR.

First Term.—Mental Philosophy, Analytical Geometry and Differential Calculus (Loomis), Astronomy (Loomis), English Literature (Shaw).

Second Term.— Moral Philosophy (Hickok), Logic (Thompson), Integral Calculus (Loomis), Analytical Mechanics (Peck), and English Literature, continued.

Substitutes.—Ladies may substitute for the latter third of Higher Algebra, Spherical Trigonometry, Analytical Geometry, Calculus, and the Mathematical parts of Higher Natural Philosophy and Astronomy, an equivalent amount of Latin, French, or German.

Theory of Teaching.—The Theory of Teaching in this course is not definitely arranged. It will probably embrace the Philosophy of Education, History of Education, and the School Law of the State.

Recommendation.—Pupils are recommended to study the Latin, French and German languages, as far as practicable.

Classical Course.

This Course is designed to prepare Teachers for Classical High Schools. The branches studied are the same as those of the Elementary and Scientific Courses, together with the usual amount of Latin and Greek reading required in Colleges. To complete it will require two years in addition to the time required for the Scientific Course. Exercises in Latin and Greek composition will be given throughout the whole Course. Those who prefer it may substitute the French and German languages for an equivalent amount of Latin and Greek reading.

EXAMINATIONS.

The Examinations are conducted by the Faculty of the School and by a Board of Examiners.

The Faculty first examine all Candidates for graduation, and, if satisfied with their qualifications, they refer them to the Board of Examiners for further examination.

The Board of Examiners consists of such Principals of the State Normal Schools as may be designated by the Superintendent of Common Schools; and the examinations are to be conducted in the presence of the State Superintendent, and the County Superintendents of the Normal District in which the school is located.

The Board of Examiners may ask questions upon all the branches of study included in the several Courses; but this examination is intended to have particular reference to the Theory of Teaching.

A Thesis upon some educational subject will be required as a part of the examination.

DIPLOMAS.

A Student graduating in the Elementary Course, will receive a Diploma, in which will be named the branches he has studied, and by which he will be constituted BACHELOR OF THE ELEMENTS; the Diplomas of those graduating in the Scientific and Classical Courses, will enumerate the distinctive branches of these Courses, and constitute their holders, respectively, BACHELORS OF THE SCIENCES, and BACHELORS OF THE CLASSICS.

Regular graduates who have continued their studies for two years, who have practiced their profession during two, full, annual terms in the Common Schools of the State, and who have presented to the Faculty and Board of Examiners, a certificate of good moral character and skill in the Art of Teaching from the Board, or Boards of Directors in whose employment they taught, countersigned by the proper County Superintendent, may receive second Diplomas, constituting them MASTERS in the several studies embraced in the Courses in which they graduated, and conferring upon them corresponding professional degrees as follows:

TEACHERS OF ELEMENTARY DIDACTICS.
TEACHERS OF SCIENTIFIC DIDACTICS.
TEACHERS OF CLASSICAL DIDACTICS.

The Normal School law makes it the duty of the authorities of the Normal Schools to grant Diplomas or State Certificates to Actual Teachers in Common Schools, without their having attended the Normal Schools as students. The following are the conditions upon which these Diplomas will be granted:

1. All applicants must be twenty-one years of age.

2. They must have taught in Common Schools during three, full annual terms.

3. They must present certificates, in regard to moral character and skill in practical teaching, similar to those presented by the regular graduates, and have them signed by the same school officers.

4. They must be examined in all the branches they desire named in their Diplomas; and these examinations must be at the time of the annual examinations at the schools where application is made.

5. A Thesis on some educational subject will be required as a part of the examination.

The Diplomas, granted in accordance with these conditions, will contain an enumeration of the branches of study in which the holder was found proficient, and confer upon him the professional degree to which the extent of his knowledge may entitle him.

All the Diplomas are authorized and furnished by the State, and exempt those who hold them from any further examination by authorities acting under the provisions of our Common School laws.

The school year is divided into two Sessions. The winter Session will begin on the second Monday in September and continue twenty-six (26) weeks. The Text-Books used at the present time are as follows:

GOVERNMENT.

In the general government of the School, there is but one rule, viz :—*do right.*

The *reason* upon which are founded the particular regulations that it has been thought necessary to adopt, may be found upon making an application of the two following principles:

1st. No student should be allowed to trespass upon the rights and privileges of another.

2d. Privileges that all cannot enjoy should be granted to none.

It is taken for granted that every student who enters the school is disposed to do right, and to obey the particular regulations of the school, and implicit trust is placed in his sense of honor and propriety

Parents and guardians are earnestly requested not to send us persons who have contracted bad habits, as the safety of others will demand their dismission.

Every care is taken to remove temptation to wrong doing, but upon the discovery that a student *cannot be trusted*, he will be removed from the school.

MORAL AND RELIGIOUS CULTURE.

Man is a moral and religious as well as an intellectual being,—a true education requires the harmonious development of all his powers. The religious nature is the perfection of his being; we labor, therefore, to give it culture—to develop its triune elements,—*Faith*, *Love* and *Obedience*.

Great care is taken to form virtuous habits, to instil correct moral principles, and to inspire the heart with the beautiful and practical truths of Christianity. The Institution, however, is in no sense sectarian, but each pupil's particular belief is held sacred.

Among the other religious privileges of the school are a Sabbath School, Bible Classes, Prayer Meetings, and a Sermon or religious lecture in the School Chapel, every Sabbath. Students are required to attend the sermon or lecture, unless for special reasons they may be excused. Attendance upon the other exercises is voluntary.

APPLICATIONS FOR TEACHERS.

Many Principals of Academies and Seminaries, and Directors of Common Schools, apply to us for Teachers. We are always glad when we can answer such requests by furnishing good teachers, but we are better able to do so near the close of each term. Our friends must not suppose, however, that *all* persons who attend our school for three or six months, can be made good teachers.

We are willing only to be held responsible for the teaching of our graduates.

LITERARY SOCIETIES.

Among the attractions of the School are two flourishing Literary Societies, conducted by the students—the "Page" and the "Normal."

They hold weekly meetings. They have together, about 2000 well selected volumes in their Libraries, all collected within a recent period. Any student may become a member of either of these Societies by paying a small initiation fee.

MISCELLANEOUS.

The Normal School buildings are large, the east front being 252 feet, and the south front 160 feet, and conveniently arranged. There are boarding accommodations for 300, and school accommodations for 400 students. The buildings are surrounded with grounds to the extent of ten acres, which have been laid out and are used for play and pleasure grounds.

The value of the buildings, grounds, furniture, etc., is about $80,000, and it is expected that large additions will be made during the coming year.

The Male and Female departments are entirely separate, each sex occupying a different building. Both sexes, however, meet at lectures and in recitations; and, we think, the presence of each has a beneficial effect upon the other.

The Institution already possesses considerable philosophical apparatus, and provision has been made to increase it. It possesses also a good cabinet of Minerological and Geological specimens, and further contributions of this nature are solicited from its friends. The ladies have a Hall 112 feet long and 30 feet wide, which is devoted to gymnastic and callisthenic exercises. The gentlemen, also, have ample play grounds, and considerable gymnastic apparatus.

Millersville is a pleasant, rural village, situated three miles from Lancaster city. A fine turnpike road connects the two places, and omnibusses leaving Kendig's Hotel, near the Railroad Depot, connect with the principal trains. The fare from Lancaster to the School is 20 cents.

The location of the school is favorable to moral culture, pupils being protected from the numerous temptations to vice which are found in cities and large towns. There are churches of several denominations in the village which pupils are permitted to attend.

All letters making application or desiring information should be directed to the Principal, Millersville, Lancaster county, Pa.

REGULATIONS FOR STUDENTS.

1. Students rooming in the building will provide themselves with *slippers*, that in passing up and down the stairways or through the halls, they can walk quietly.

8. No nails must be driven into the walls or ceiling, or alterations be made in the windows, doors, or any appendage of the rooms, without the permission of the Superintendent. The Superintendent will visit each room, at least once a week, and, if damaged, it may be repaired, or, if unnecessarily dirty, it may be cleansed, at the expense of the occupant.

9. No water, dirt, or other material must be thrown from the porticos or windows.

10. Students are not allowed to visit one another's rooms during the regular hours of study, and no change of rooms must take place without permission from the Principal.

12. All Students who are tardy unnecessarily, at meals, must forfeit them; all must conduct themselves at table in a becoming and orderly manner, and no one must leave before the rest without good

reason and permission from a teacher. Any Student sick or indisposed, and requiring attention, must have himself reported to the Superintendent and he will be waited upon in his room.

13. It is expected that the ladies and gentlemen of the Institution will treat one another with politeness, but no conversation between the sexes must take place in the Lecture Room, in the Recitation Rooms, or in the Halls. At the close of evening lectures or Society meetings, all will repair immediately to their respective rooms.—Neither sex will be expected to trespass upon that portion of the building assigned to the other.

14. No lady or gentleman attending this Institution will walk or ride with a person of the opposite sex. except in cases of necessity; and, then, only with the permission of the Principal.

15. Gentlemen Students having sisters or other female relatives in the Institution whom they wish to visit, will receive visiting Cards which will admit them to the privileges of the Ladies' Parlor on such days and at such hours as may be agreed upon. Students of the two sexes other than relatives cannot meet privately unless upon business, and then, only by the special permission of the Principal. Gentlemen, not Students, desiring to call upon ladies connected with the Institution must obtain permission from the Principal. Except for special reasons, no visiting will be permitted on the Sabbath.

16. Parents and other relatives from a distance, can see ladies in the parlor, and gentlemen in the reception room appropriated to them.

17. All Students desiring their friends to remain at the School for meals, in order to secure seats for them at the table must give due notice to the Steward. A violation of these arrangements will be considered a breach of hospitality.

18. Every Student must furnish his own towels, and should have all articles of clothing marked with his full name. All Students are permitted to have eleven pieces washed each week without extra charge.

These regulations have been adopted after very careful consideration as to what would best promote the good of the Institution and of those connected with it. It is hoped they will recommend themselves to the good sense of every Student, and be obeyed because they are reasonable and right.
